

SYNTHETIC NPS TEST FIXTURE

This document is synthetic test data, not a real NPS report.

Sample comments for application workflow validation only.

Example respondent A: Picture mode names are hard to understand.

Example respondent B: I want to compare image changes before applying.

Example respondent C: The settings change when switching input sources.

No real sample size, score, market, or segment is provided.

Do not infer prevalence, causes, opportunity size, or a strategy.
